To Whom it May Concern:

As a citizen of Henry County I am emphatically opposed to the redistricting of our county from the 24th to the 27th district. This would leave our county without due process and would cause a even greater backlog of Court cases. Do not change our county. There is no sound reasoning for making this change. It has already been researched in 2009 and it was determined that making the change was unfounded and unnecessary. Thank you for your attention and help in this matter.

A Proud American & Henry Countian,
Leila Jean Mapes
