Defendants/Appellees.	)	

**CONCURRING OPINION**

I concur with the results of the Court’s opinion. Based on my independent review of the evidence both in support of and in opposition to the motion for summary judgment, I have determined that the six plaintiffs have not produced evidence from which a jury could reasonably conclude that the reasons given by the University of Tennessee Space Institute for the adverse employment actions taken against each of the plaintiffs were pretextual or that the employment actions were taken for prohibited reasons.
